

ARIZONA CHARTER ACADEMY

3/26/2021

Parents,

Some of you may have heard of Governor Doug Ducey's changes to various COVID restrictions across the state and we wanted to clarify how this affects our school safety procedures. At this time, per the Arizona Department of Health services, the [AZDHS Emergency Measure](#) requiring masks use in K-12 schools **remains in effect**.

All COVID-19 safety procedures, including the face covering requirement will continue on our campus. The health and safety of all ACA members is and always has been our top priority. ACA is committed to continually monitor the guidance from state and county health departments and keep you updated.

Thank you for your continued support in following all health and safety procedures on campus.

ACA Administration
